SoftSkills Assignment module - 2

Question-1 :- Discuss plans for upgrading your technology skills.

I am currently doing web design course if I have any question I take help from sir or help from youtube I come home and take extra template and website demo from google and practice my way so practice classes practice in lab And come home and practice on my own and try to solve the question on my own thus improving my technology.

Question-2 :- Mention any relevant courses, certifications, or resources you are pursuing.

I am currently doing web designing in tops technology from there I am taught html, javascript, bootstrap, jquery, etc. languages currently my main focus is web designing and UI / UX. If I have time in the future, I want to learn new technology so I will keep improving as my technology gets updated. And I will keep getting information about new technology and I will keep improving my skin according to new technology, now I want to focus on my technology.

Question-3 :- Share your approach to continuous learning and professional development.

My approach to continuous learning is to be curious about my work and learn about new things.I practice my way at home I complete the assignments and projects given to me in class and I try to make new improvements in them and I keep other goals and boundaries clean and complete my assignment projects time to time thus my time management But well maintained. I attend classes and seminars. I believe that going beyond my comfort zone and developing new skills helps me perform better in my work and makes me a better professional.
